2019/May Braindump2go AZ-101 Exam Dumps with PDF and VCE New Updated Today! Following are some new AZ-101 Exam Questions:1.|2019 Latest Braindump2go AZ-101 Exam Dumps (PDF & VCE) Instant Download:https://www.braindump2go.com/az-101.html2.|2019 Latest Braindump2go AZ-101 Exam Questions & Answers Instant Download:https://drive.google.com/drive/folders/1KoBQez_BqgPlnBE-cCoz8OkAoozD-2g9?usp=sharingNew QuestionYou have an Azure subscription.You enable multi-factor authentication for all users.Some users report that the email applications on their mobile device cannot connect to their Microsoft Exchange Online mailbox. The users can access Exchange Online by using a web browser and from Microsoft Outlook 2016 on their computer.You need to ensure that the users can use the email applications on their mobile device.What should you instruct the users to do?A. Enable self-service password reset.B. Create an app password.C. Reset the Azure Aactive Directory (Azure AD) password.D. Reinstall the Microsoft Authenticator app.Answer: AExplanation: **https://docs.microsoft.com/en-us/azure/active-directory/authentication/concept-sspr-howitworks**New QuestionYou have an Azure subscription named Subscription1 and two Azure Active Directory (Azure AD) tenants named Tenant1 and Tenant2. Subscription1 is associated to Tenant1. Multi-factor authentication (MFA) is enabled for all the users in Tenant1.You need to enable MFA for the users in Tenant2. The solution must maintain MFA for Tenant1.What should you do first?A. Transfer the administration of Subscription1 to a global administrator of Tenant2B. Configure the MFA Server setting in Tenant1.C. Create and link a subscription to Tenant2.D. Change the directory for Subscription1.**Answer: C**New QuestionSIMULATIONThis is a lab or performance-based testing (PBT) section.The following section of the exam is a lab. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.Please, note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.To start the labYou may start lab by clicking the Next buttonTasksClick to expand each objectiveasTo connect to the Azure portal, type https:/portal.azure.com in the browser address bar.You need to create a function app named corp7509086n1 that supports sticky sessions. The solution must minimize the Azure-related costs of the App Service plan.What should you do from the Azure portal?**A. See below explanation**
Answer: AExplanation:Step 1:Select the New button found on the upper left-hand corner of the Azure portal, then select Compute > Function App.Step 2:Use the function app settings as listed below.App name: corp7509086n1Hosting plan: Azure App Service plan (need this for the sticky sessions)Pricing tier of the the App Service plan: Shared compute: FreeStep 3:Select Create to provision and deploy the function app.References:
