QUESTION 61 Drag and Drop Question You are the Office 365 administrator for your company. The company has multiple Microsoft SharePoint Online sites that are shared with external users. Individual documents have also been shared from other Microsoft SharePoint Online sites. The company recently ended collaboration with a vendor named Contoso, Ltd. You need to revoke all sharing with external users who log in with contoso.com accounts without affecting sharing with other vendors. Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Use the **Get-SPOUser** cmdlet with the **-external** switch.

Use the **Remove-SPOUser** cmdlet.

Open the SharePoint Management Shell.

Use the **Remove-SPOExternalUser** cmdlet.

Use the **Connect-SPOService** cmdlet.

Open the SharePoint Online Management Shell.

Use the **Get-SPOSite** cmdlet.

QUESTION 62 Hotspot Question Your company uses Microsoft SharePoint Online. You share a file named Document1 with several users, as shown in the image below.

You need to ensure that the users can display, but not change, Document1. What should you do? Select the correct answer from each list based on the information presented in the image. Each correct selection is worth one point.

Answer:

QUESTION 63 You are the Office 365 administrator for your company. All users have been assigned E3 licenses and use Office Web Apps to create and edit documents. A user attempts to access documents stored on a USB flash drive. When the user double-clicks a file that is stored on the USB flash drive, an error message states that Windows can't open the file and needs to know what program to use to open it. You need to ensure that the user can start Office applications and edit Office documents by double-clicking files. What should you do on the user's computer? A. Use Office on Demand. B. Install Office 365 ProPlus from the Office 365 portal. C. Copy the files from the USB flash drive to the local hard drive. D. Install and configure Microsoft Word Viewer. Answer: B QUESTION 64 You are the Office 365 administrator for your company. Executive employees have been assigned E3 licenses. Non-executive employees have been assigned E1 licenses. An employee who is not on the executive team wants to communicate with executive team members by using Microsoft Lync instant messaging. You need to ensure that the employee can use Lync. What should you do? A. Sign in to the Office 365 portal and use Office on Demand. B. Sign in to the Office 365 portal and then run the Office 365 Desktop Setup. C. Sign in to the Office 365 portal and then download and install Office 365 ProPlus. D. Sign in to the Office 365 portal and then download and install the Lync Basic desktop client. Answer: D QUESTION 65 Drag and Drop Question Your company uses Office 365. You are planning a user-driven deployment of Office 365 ProPlus. You need to provide users with the minimum requirements for running Office 365 ProPlus. Which requirements should you provide? To answer, drag the appropriate requirements to the correct targets. Each requirement may be used once, more than once, or not at all. You may

need to drag the split bar between panes or scroll to view content.
