2019/January Braindump2go 312-50v10 Exam Dumps with PDF and VCE New Updated Today! Following are some new 312-50v10 Real Exam Questions:]1.|2019 Latest 312-50v10 Exam Dumps (PDF & VCE) 772Q&As Download: **https://www.braindump2go.com/312-50v10.html2.|2019 Latest 312-50v10 Exam Questions & Answers Download: https://drive.google.com/drive/folders/1g15jl9W8jnovDp0b_CsOg86BZSP5ualP?usp=sharing**QUESTION 720The "black box testing" methodology enforces what kind of restriction?A. Only the internal operation of a system is known to the tester.B. The internal operation of a system is completely known to the tester.C. The internal operation of a system is only partly accessible to the tester.D. Only the external operation of a system is accessible to the tester.**Answer: D**QUESTION 721> NMAP -sn 192.168.11.200-215 The NMAP command above performs which of the following?A. A port scanB. A ping scanC. An operating system detectD. A trace sweep**Answer: A**QUESTION 722 An LDAP directory can be used to store information similar to a SQL database. LDAP uses a ____ database structure instead of SQL's _____ structure. Because of this, LDAP has difficulty representing many-to-one relationships.A. Strict, AbstractB. Simple, ComplexC. Relational, HierarchicalD. Hierarchical, Relational**Answer: D**QUESTION 723What is the purpose of DNS AAAA record?A. Address prefix recordB. Address database recordC. Authorization, Authentication and Auditing recordD. IPv6 address resolution record**Answer: D**QUESTION 724Which of the following statements is FALSE with respect to Intrusion Detection Systems?A. Intrusion Detection Systems can easily distinguish a malicious payload in an encrypted trafficB. Intrusion Detection Systems can examine the contents of the data in context of the network protocolC. Intrusion Detection Systems can be configured to distinguish specific content in network packetsD. Intrusion Detection Systems require constant update of the signature library**Answer: A**QUESTION 725You are performing a penetration test for a client and have gained shell access to a Windows machine on the internal network. You intend to retrieve all DNS records for the internal domain. If the DNS server is at 192.168.10.2 and the domain name is abccorp.local, what command would you type at the nslookup prompt to attempt a zone transfer?A. list domain=abccorp.local type=zoneB. Is -d accorp.localC. list server=192.168.10.2 type=allD. Iserver 192.168.10.2 -t all**Answer: B**QUESTION 726Which command can be used to show the current TCP/IP connections?A. NetshB. Net use connectionC. NetstatD. Net use**Answer: C**QUESTION 727You are performing information gathering for an important penetration test. You have found pdf, doc, and images in your objective. You decide to extract metadata from these files and analyze it. What tool will help you with the task?A. ArmitageB. DmitryC. MetagoofilD. cdpsnarf**Answer: C**QUESTION 728You have several plain-text firewall logs that you must review to evaluate network traffic. You know that in order to do fast, efficient searches of the logs you must use regular expressions. Which command-line utility are you most likely to use?A. Relational DatabaseB. MS ExcelC. NotepadD. Grep**Answer: D** QUESTION 729This phase will increase the odds of success in later phases of the penetration test. It is also the very first step in Information Gathering and it will tell you the "landscape" looks like. What is the most important phase of ethical hacking in which you need to spend a considerable amount of time?A. network mappingB. footprintingC. escalating privilegesD. gaining access**Answer: B**QUESTION 730When you are collecting information to perform a data analysis, Google commands are very useful to find sensitive information and files. These files may contain information about passwords, system functions, or documentation. What command will help you to search files using Google as a search engine?A. site: target.com filetype:xls username password emailB. domain: target.com archieve:xls username password emailC. inurl: target.com filename:xls username password emailD. site: target.com file:xls username password email**Answer: A**QUESTION 731You have successfully gained access to your client's internal network and successfully comprised a Linux server which is part of the internal IP network. You want to know which Microsoft Windows workstations have file sharing enabled. Which port would you see listening on these Windows machines in the network?A. 161B. 3389C. 445D. 1433**Answer: C**QUESTION 732Which of the following is assured by the use of a hash?A. AuthenticationB. ConfidentiallyC. AvailabilityD. Integrity**Answer: D**QUESTION 733 Risks=Threats x Vulnerabilities is referred to as the:A. BIA equationB. Disaster recovery formulaC. Risk equationD. Threat assessment**Answer: C**QUESTION 734The tools which receive event logs from servers, network equipment, and applications, and perform analysis and correlation on those logs, and can generate alarms for security relevant issues, are known as what?A. Network SnifferB. Vulnerability ScannerC. Intrusion Prevention ServerD. Security Incident and Event Monitoring**Answer: D** QUESTION 735You have just been hired to perform a pen test on an organization that has been subjected to a large-scale attack. The CIO is concerned with mitigating threats and vulnerabilities to totally eliminate risk. What is one of the first things you should do when given the job?A.
