Aero features are downloaded from Microsoft. C. The windows experience index is at least 2. D. The Windows Experience Index is 3 or greater. Answer: AD
QUESTION 112 You manage a computer that runs Windows 7. You are tasked to identify which applications were installed during the last week. What Windows component would you use to find this information? Choose two. A. Check the Windows System Change Log in the Control Panel. B. View the events in the Applications Log under Windows Logs in the System and Security component section of the Control Panel. C. Review the informational events from Reliability Monitor. D. Check the Windows System Diagnostics Report under the Performance Monitor MMC. Answer: BC
QUESTION 113 Which of the following Windows 7 Editions allows you to join an Active Directory domain? Choose three. A. Windows Home Edition B. Windows Professional Edition C. Windows Ultimate Edition D. Windows Enterprise Edition Answer: BCD Explanation:

```
/v:<server:port> Specifies the remote computer you want to connect to.
Is used for administration of a terminal server. In this version of Remote Desktop Connection, if the Terminal Server role service is installed on the remote computer, running mstsc /admin will do the following (for the current connection only):
Disable Terminal Services client access licensing.
Disable time zone redirection.
Disable TS Session Broker redirection.
Disable TS EasyPrint.
/admin /admin also does the following on connections to Windows Server 2008 with the Terminal Server role service installed:
Disables Plug and Play device redirection for this connection only.
Changes the remote session theme to Windows Classic View for this connection only.
To connect to a remote computer with the Terminal Server role service installed, follow these steps:
1. Open the Start menu.
2. Click on the Start button, clicking All Programs, clicking Accessories, and then clicking Command Prompt.
3. Type mstsc /v:server /admin.
/f Starts Remote Desktop Connection in full-screen mode.
/w:<width> Specifies the width of the Remote Desktop Connection window.
/h:<height> Specifies the height of the Remote Desktop window.
/public Runs Remote Desktop Connection in public mode.
Matches the remote desktop width and height with the local virtual desktop, spanning across multiple monitors if necessary. To span across monitors, the monitors must all have the same height and be aligned side by side.
/edit
"connection file" Opens the specified .rdp connection file for editing.
/migrate Migrates older connection files that were created with Client Connection Manager to new .rdp connection files.
/? Lists these parameters.
```
