All the members of a team named Sales have full access to a shared mailbox named Sales. You enable auditing for all shared mailboxes. From the Sales mailbox, an email message that contains inappropriate content is sent. You need to identify which user sent the message. What should you do? A. From the Exchange Control Panel, run an administrator role group report.B. From Windows PowerShell, run the Get-SharingPolicy cmdlet.C. From Windows PowerShell, run the Write-AdminAuditLog cmdlet.D. From Windows PowerShell, run the New-MailboxAuditLogSearch cmdlet. Answer: DExplanation:By process of elimination:The Write-AdminAuditLog cmdlet will write a comment to the administrator audit log.The Get-SharingPolicy cmdlet allows you to view the settings of sharing policiesThe administrator role group report in EOP will list changes to the management role groups within a particular time frame.The New-MailboxAuditLogSearch cmdlet performs an async search of mailbox audit logs for the specified mailboxes and sends the search results by email to the specified recipients.<https://technet.microsoft.com/en-us/library/ff522362%28v=exch.150%29.aspx> QUESTION 18Your company deploys Microsoft Lync Online. You deploy the Microsoft Lync 2010 client to all client computers. All users log on to the local domain. You need to prevent users from modifying the Advanced Connection Settings on the Lync 2010 client. What should you do? A. Deploy a Group Policy object (GPO) that uses the Communicator.adm administrative template.B. Deploy a Group Policy object (GPO) that removes all of the members of the local Administrators group.C. From the Lync Server Management Shell, run the Set-CsClientPolicy cmdlet.D. From the Lync Server Management Shell, run the Set-CsUserServicesConfiguration cmdlet. Answer: A QUESTION 19Drag and Drop QuestionYou are the Office 365 administrator for your company. You need to set up resource monitoring and quota monitoring for the environment.What should you do? To answer, drag the appropriate terms to the correct targets. Each term may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Office 365 admin portal	Answer Area
SharePoint Administration Center	Location
Site settings	Item to configure
Resource	
Site collections	
Quota alerts	
Document library alerts	

Answer:

QUESTION 21 Drag and Drop Question You are the Office 365 administrator for your company. Your company uses Microsoft SharePoint Online to share documents with internal and external users. A document associated with a bidding process was shared in the environment. Guest access to the document was provided to several vendors. The bidding process has now ended. You need to revoke vendor access to the document. Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

QUESTION 22 Contoso, Ltd. has an Office 365 Enterprise E3 plan. Contoso uses the domain contoso.com for email and instant messaging (IM). Contoso requires that website visitors who go to <http://contoso.com> be directed to the company's Microsoft SharePoint Online public website. You need to configure Office 365 to redirect the website requests without affecting the company's email or IM. What should you do? A. In the SharePoint admin center, rename the public website to <http://contoso.com>. B. In the Office 365 admin center, change the domain purpose for contoso.com to SharePoint. C. On the authoritative DNS servers, add a CNAME record for contoso.com. D. In the Office 365 admin center, add a new subdomain. Then set up redirection for <http://contoso.com> to the subdomain. Answer: D

QUESTION 23 You manage client computing devices for a company. Office 365 was recently deployed for all employees in the sales department. Company policy requires the installation of Office 365 ProPlus on all new client computing devices for sales department employees. The company recently purchased Surface Pro 2 devices for all sales department employees. You are testing a new Office deployment for a specific user on a Surface Pro 2. You are unable to activate Office on the Surface Pro 2. An error message states that the install limit has been reached. You need to activate Office 365 ProPlus on the Surface Pro 2 for the user. What should you do? A. Sign in to the Office 365 portal as the user and deactivate unused Office 365 ProPlus licenses. B. Sign in to the Office 365 admin center as an Office 365 administrator. Remove and then re-add the user's Office 365 ProPlus license. C. Install a licensed copy of Office Professional Plus 2013 that is covered under a volume licensing agreement. D. Sign in to the Office 365 admin center as an Office 365 administrator and deactivate unused Office 365 ProPlus licenses. Answer: A
